

First ... Then ...

Name: _____ Date: _____

First

Cut out a picture card and place it here

Then

Cut out a picture card and place it here

How to use: Print this page and the picture-card pages that follow. Cut out the picture cards along the dashed lines. Laminate for durability if you like, and attach a small piece of Velcro (soft side) to the back of each card and to each box on the board, so cards can be moved and reused. Place one card in the **First** box to show the task to complete, and one card in the **Then** box to show what comes after — a reward or the next activity.
